

WILSON & MORRIS

PITTURE DECORATIVE

Product Information Card

PRIMER WM

a primer for decorative effects

Description

PRIMER WM by Wilson & Morris is a water-based filler, high quality, for the preparation of surfaces prior to decoration.

Use

PRIMER WM can be applied on all surfaces such as:
both old and new plaster lime cement, plasterboard.

Application and preparation

Make sure all surfaces are clean and free of grease and dust. If they should show some crumbling surfaces apply a EMULSION PRIMER (see product data sheet), for having an excellent uniformity.

You may experience peeling if you proceed to repaint on precarious surfaces without primer paint layers.

Stir well before use and dilute to 40-60% with water absorption of the support and apply in a single coat.

Finally, wait at least four hours with any water-based product.

Do not apply to fresh slightly acidic media, allow an adequate curing time, which can range from three to five weeks.

Warnings

Do not apply in the presence of temperatures below 8 ° C and above 30 ° C, and in conditions of excessive humidity conditions (<80%).

The material must be protected from frost and strong temperature changes during the entire application process.

Tool cleaning

Clean the tools immediately after use with hot and running water; use a detergent for best results.

Coverage

10-14 sq m / l per coat, depending on the absorption of the support.

Colors

White

Packaging

The packs of PRIMER WM product are: 1 lt, 3 lt.

Storage

The material has a shelf life of 12 months in the jar, stored under cover, tightly sealed, original packaging, undiluted and at a temperature between + 8 ° C and + 30 ° C.
